

ARIJIT KARMAKAR

Competitive Programmer | Problem Solving Enthusiast

+917001450591 | arijitkarmakar873@gmail.com | LinkedIn | Bankura, West Bengal, 722202

PROFILE SUMMARY

Enthusiastic software developer with a **Master's in Computer Applications (MCA, 2024)**. Passionate about problem-solving, proficient in C++. Eager to learn and work with new technologies, with knowledge of the MERN stack. Aspiring to grow as a skilled developer and contribute to innovative projects.

EDUCATION

Master of Computer Applications (CGPA: 7.70)

Future Institute of Engineering and Management

10/2022 – 08/2024

Kolkata, West Bengal

Bachelor of Computer Applications (CGPA: 9.31)

Raghunathpur College

08/2019 – 06/2022

Purulia, West Bengal

PROJECTS

WebPad - Online Web IDE | *React.js, CodeMirror, React Router, Context API, Tailwind CSS* | [GitHub](#) | [Live](#)

- WebPad is a responsive web IDE for HTML, CSS, and JavaScript with CodeMirror and real-time preview.
- Implemented multi-project and file management with project creation, renaming, deletion, open-file tabs, save/reset functionality, and LocalStorage persistence.
- Developed a responsive UI with resizable editor/preview panels, dark/light themes, and project navigation.

Personal Portfolio Website | *React.js, Tailwind CSS, Framer Motion* | [GitHub](#) | [Live](#)

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and professional experience.
- Optimized performance, responsiveness, and cross-browser compatibility for seamless viewing across devices.

Yum Secrets – Recipe Finder App | *React, REST API, Tailwind CSS* | [GitHub](#) | [Live](#)

- An API based food recipe finder web application using react.
- The user can browse through the recipes and display the selected recipe details.
- The user can also search the recipe from the search bar present at the top of the page.

Face Recognition Attendance System | *Python, OpenCV, LBPH, Tkinter*

- Built an automated attendance system using real-time face recognition.
- Used OpenCV and LBPH algorithm for face detection and identification.
- Implemented attendance tracking with timestamps for each recognized user.
- Developed a desktop interface using Tkinter for easy interaction.

TECHNICAL SKILLS

Programming Languages : C, C++, JavaScript

Web Technologies : HTML, CSS

Concepts and Databases : Data Structures & Algorithms, OOPS, Operating System, SQL

Frameworks / Libraries : ReactJS, Tailwind CSS, Motion

Tools / Platforms : GitHub, VS Code

CERTIFICATIONS

- **JavaScript Algorithms and Data Structures** | freeCodeCamp | [Link](#)
- **Mern Stack Development** (Duration: 4 months) | EJOB INDIA | [Link](#)
- **Introduction to Industry 4.0 And Industrial Internet of Things** (Duration: 12 weeks) | NPTEL | [Link](#)
- **Object Oriented Programming** | takeUforward | [Link](#)
- **Operating System** | takeUforward | [Link](#)
